

1^W Langenlois Ried **Seeberg** 2018

Vineyard

Origin:	Kamptal
Quality grade:	Kamptal DAC
Site:	Langenlois Ried Seeberg Elevation 300 - 320 m
Grape variety:	Riesling
Soil composition:	mica slate
Climate:	pannonian, continental
Training method:	Lenz Moser, Guyot
Age of vines:	20 - 65 years
Density of plants:	3.000 – 5.000 vines/ha
Yield:	35 hl/ha
Cultivation method:	biological-dynamic, according to respekt BIODYN

Cellar

Harvest:	selective harvest by hand in 20 kg crates middle –end of September 2018
Maceration time:	whole cluster pressing an mash contact 12 - 24 hours
Fermentation:	spontaneous fermentation, 50% in stainless steel tanks & 50% in used oak barrels, 4 weeks - 4 months by 22°
Aging:	in oak barrels on full lees for 11 months, on fine lees for 8 months
Bottling:	June 2020, unfiltered

Wine

Vintage:

WARM but NOT HOT

This describes the weather conditions in general in 2018. February and March were very cold winter months. After an unusually warm January, the cold temperatures in February and March led to a later bud break – which meant that, in contrast to the prior two years, there was no damage caused by late frosts. Then came the second warmest spring since 1767; this allowed for the vegetation to speed up significantly. One of the earliest flowerings ever recorded had been completed in most wine regions by the end of May. This vegetative head start held its own even during the hot summer. While June was warm and brought moderate rainfall, the month of July was hot and delivered periods of pronounced heat and even drought. This affected especially the Weinviertel region. Irrigation – where possible – and other viticultural measures were urgently needed to protect young plants and shallow-rooted vineyards from stress overload. The harvest was already underway in August, although a cold air front arrived at the end of the month, setting the scene for a cooler picking period. Then came some unpleasant side effects - thunderstorms and heavy rain – which forced a partial interruption to the harvest. Fortunately, a mild, sunny and mostly dry September heralded the harvest's end. Picking was basically completed at the beginning of October. Even though October was warmer than usual with above-average temperatures in many areas, the grapes already were spending most of it in the cellars for vinification of this very good vintage. Straw yellow colour and thick tears. Shows varietal typicity on the nose with scents of dried apricot and greengage. The palate is juicy with a prominent acidity structure and clean-as-a-whistle fruit expressions, including apricot. Discreet extract sweetness and a lemon sorbet note. Very approachable and ready to drink. Even with its gentle alcohol, this wine has a rich body and firm structure, and climaxes with a long salty-fruity finish.
